SUMMARY

Software engineer with 8+ years of experience shipping design systems, banking apps, auction platforms, AI agents, and healthcare software for enterprise clients. Currently building healthcare solutions at Jaya Tech for FamilyWell Health, a US based startup focused on mental healthcare for women. Previously built LLM-powered products and AI agents at Caylent on AWS. Co-founded Konkreta, Brazil's main concrete ordering platform, and founded Engenharia Livre, an engineering blog with 40k+ followers.

EXPERIENCE

Software Engineer · Jaya Tech Apr 2025 – Present
Full-stack development of a HIPAA-compliant registry platform for FamilyWell Health, a US based startup focused on mental healthcare for women.

Software Engineer · Caylent Sep 2024 – Apr 2025
Built AI-powered products on AWS, including internal LLM chat tools and AI agents for business automation.

Software Engineer · Trela Nov 2021 – Jul 2024
Full-stack development on a Next.js platform, building design systems, BFFs, microservices, and data infrastructure.

Software Engineer · DBServer Oct 2020 – Oct 2021
Migrated a banking application from Angular to React and built supporting design systems and backend services.

Training Instructor · Gama Academy Jan 2021 – Feb 2021
Software Engineer · Avanade Jul 2019 – Oct 2020
Software Engineer · VOLLUP.COM Feb 2019 – Jun 2019
Co-Founder · Konkreta Jul 2018 – Apr 2019
Technical Director · Constrinew Engenharia Jun 2017 – Apr 2019
Intern · Pöyry Tecnologia Mar 2015 – Jun 2016
Developer · Blog da Engenharia Aug 2014 – Jan 2015
Bilingual Technical Support Specialist · TeleTech Apr 2012 – Feb 2015
Backoffice · TeleTech Jan 2009 – Aug 2012

SKILLS

Frontend: CSS Modules, Design Systems, Next.js, React, Storybook, Styled Components, Tailwind CSS, and TypeScript.

Backend: Cloudflare Workers, Express, FastAPI, Fastify, GraphQL, Nest.js, Node.js, and Python.

AI / LLM: Amazon Bedrock, CrewAI, DeepEval, LLM Integration, and RAG.

Cloud & Infrastructure: AWS, Cloudflare, Docker, Fly.io, GitHub Actions, Hetzner, and Terraform.

Testing: Cypress, Jest, Playwright, TDD, and Vitest.

Data: Metabase, MongoDB, Postgres, RabbitMQ, Redis, and Snowflake.

Languages: Portuguese (Native speaker) and English (Professional).

EDUCATION

Bachelor in Civil Engineering · Universidade Anhembi Morumbi 2012 – 2016
Extension Course in Software Testing · Universidade Federal de Minas Gerais May 2021 – Jun 2021
Extension Course in Modern Software Engineering · Universidade Federal de Minas Gerais Sep 2020 – Dec 2020
